

# User Guide-Key Outcome Tracker

IDS-494, Final Project

Krithika Suresh  
Shrey Shrivastava  
Prathima Shreenath

## FRAME #0

Home Page of Key Outcome Tracker Application

Navigates to frame #1A

Activities – redirects to frame B

## FRAME #1A

*Agenda of Key Outcome Tracker Application*

1<sup>st</sup> Button will redirect to frame #3 and frame #4

2<sup>nd</sup> Button will redirect to frame #5 and frame#6

3<sup>rd</sup> Button – under construction

4<sup>th</sup> Button – under construction

*At the bottom of the page there are 2 image buttons*

Right Image Button – opens frame #2 i.e. the About Us frame

Left Image Button – opens frame #1B i.e. the Student Profile frame

## FRAME #1B

Student Profile Frame – Contains all the standard information of the user, details of only 1 user can be displayed and saved

## FRAME #2

About US Frame – Will display the names of students involved in developing the application

## FRAME #5

Will display all the names of the instructors added in the database, further if a user clicks the instructor name appearing on the list, it will be redirected to another frame which will show all the details about that particular instructor. Initially the frame will be empty as there is no Instructor detail already existing in the database.

*Suppose the instructor is added in the database, Along with the name of instructor there will be 2 buttons*

Edit – will redirect to frame #6

Delete – will delete the instructor details from the database

*When the user clicks the menu button 4 menu options will be present*

- 1) Add/Edit Instructor/TA – Redirects to Frame#6
- 2) Show Instructors – Redirects to Frame#5
- 3) Show TA – Redirects to Frame#5
- 4) Key Outcome Tracker – Redirects to Frame #1

## FRAME #6

This frame contains 2 radio buttons at the top Instructor and TA, one can select either of these 2 which he wants to add in the database. After selecting, one can proceed with filling the details, days of office hours and the respective office hour of each day.

There will be a delete button next to the Office hours to delete them.

Save and Add Button – This will save all the details and insert it into the database and again the frame#6 will appear from the scratch and user can again add

Save and Finish Button – This will save all the details and insert into database and will redirect to frame#5

### FRAME #3

Will display all the names of the classes added in the database, further if a user clicks the class name appearing on the list, it will be redirected to another frame which will show all the details about that particular class. Initially the frame will be empty as there is no class already existing in the database.

*Suppose the class is added in the database, Along with the name of class there will be 2 buttons*

Edit – will redirect to frame #4

Delete – will delete the class details from the database

*When the user clicks the menu button 2 menu options are present*

- 1) Add Classes – Redirects to Frame#4
- 2) Key Tracker Outcome – Back to Frame#1A

### FRAME #4

We have divided the frame #4 given in Wire frames documents into 2 frames,

First part of frame – will add all the class details, the days scheduled and the number of targeted weekly sessions. After user saves this information it will be redirected to the next part of the frame

Second part of the frame – will add the class description, location and the name of instructor or ta for that class. After the user saves this information he/she will be redirected to frame #3 which will show the names of all the classes added.

HELP – Redirect to Frame A

### FRAME A

Shows the Study Session Guidelines
